

On the right *track*

2018 INTEGRATED ANNUAL REPORT SUMMARY

Seventy-three years ago,

we began a long journey, to become the number one baking Company in the world. The road has been full of challenges and we now have the commitment to fulfill our Vision:

“In 2020 we transform the baking industry and expand our global leadership to better serve more consumers”.

To get there, we have strived to do things right.

This means working efficiently along our complete value chain with the maximum quality, in order to be successful and achieve our goals.

Together with a team of professional leaders **with the best talent and guiding the Company towards the right steps**, we have achieved almost all of the objectives on this journey but we are not there yet.

We are on the right track to build a sustainable, highly productive and deeply humane company.

Letter to our shareholders

Dear Shareholders:

On behalf of the Board of Directors and the Management team, it is a pleasure to report on a year in which we further **expanded our global leadership** position, making significant progress toward our 2020 Vision and enhancing our geographic, category and channel **diversification**.

We achieved **record-breaking levels** of net sales, gross profit, operating income, adjusted EBITDA and the number of points of sale reached, **increasing our penetration** in the global market by regularly visiting more than 3.3 million customers. Our net income increased 25%, which translated into a 90 basis points improvement in the return on equity.

The increase in net sales of 7.8% was largely attributable to the good performance in Mexico and North America, as well as the acquisitions of Bimbo QSR, Bays English Muffins and Mankattan.

At the regions level, the good performance in Mexico was a result of the **excellent work** of our associates, who achieved significant sales growth in all channels, categories and regions. We also introduced products such as Bimbo Donuts, our leading sweet baked goods product in Spain, leveraging our best products from around the world to continue driving our **leading brands**.

In North America, our sales increase was driven by strong growth in the sweet and salty snacks category in the United States, as well as higher prices necessitated by inflation in our raw materials, labor, trans-

portation and energy costs. This was partially offset by a decline in volume in the private label category. In addition, sales in this region were benefited from excellent results in Canada, reflecting a positive trend in the bread category.

In Latin America, we experienced outstanding results in our Latin Centro Organization and in Chile, where we reached historic levels of sales and strengthened our presence with the acquisition of Nutra Bien, a leading player in the sweet baked goods and special cookies categories. However, Brazil and Argentina continue to be challenged, the latter caused by the macroeconomic situations in the country.

In our Europe, Asia and Africa (EAA) region, we became the #2 player in China after completing the acquisition of Mankattan, positioning us well within a market with extraordinary growth potential. In Iberia, we are realizing synergies in the Donuts integration, but at a slower rate than expected and in Spain, we are challenged to improve the trend in the sweet baked goods category.

We continued to **strengthen our financial structure**. We achieved our year-end commitment to deleverage to under three times total debt to adjusted EBITDA, closing the year at 2.8 times. This is attributable to the strong operating performance, the issuance of \$500 million dollars in perpetual notes and the prepayment of \$123 million dollars of our debt. Our debt maintains a comfortable and long-term maturity profile, with an average duration of 10.6 years, and we adjusted the currency mix to be more aligned with our cash flow generation.

The 16.2% adjusted EBITDA increase was generated by good results at the operating level, including **higher productivity**. Several factors contributed to this result: the closure of four plants, the implementation of the Voluntary Separation Program and the organizational restructuring initiatives in North America, and benefits from Zero Based Budgeting. It is also important to highlight the capital investments of approximately \$750 million dollars intended mainly for increased capacity and automation in manufacturing, logistics and distribution to lower costs.

Our commitment to integrity is part of our DNA, and we are proud to announce that for the third year in a row we received a recognition from the Ethisphere Institute for being one of the **most ethical companies in the world**.

The safety of our associates will always be a top priority. While we did not reach our goals this year, we will never stop reinforcing the necessary operational discipline, risk identification and elimination and leadership focus to prevent injuries.

At Grupo Bimbo, a major aspect of nourishing our world is our **commitment to the planet**. We remain firmly committed to the ten principles of the United Nations Global Compact, as well as to the 17 Sustainable Development Goals of the United Nations Development Program. We became the first company in Mexico to produce Clean Energy Certificates for distributed generation. This initiative will contribute to Mexico's goal of using 50% of clean energy by 2050. We also signed an agreement with Invenergy, the largest independent renewable energy generation company in the U.S., through which Grupo Bimbo will become 75% renewable worldwide, with a reduction of 440,000 tons of CO₂e per year.

Finally, **2019 begins with a bright outlook full of opportunities** in the market. Our industry remains highly fragmented, our 4.5% global market share and low household penetration rates indicate the magnitude of our future growth potential. We also started the year with challenges, particularly the uncertainty, volatility and recent political and macroeconomic changes in markets such as Mexico and Argentina.

We will continue to focus on building a business that **grows in a sustainable way, boosting profitability, accelerating transformation and supporting our associates**. Meanwhile, we will proactively look for opportunities to invest in research and development, improve the nutritional profile and innovation in our product portfolio and automation throughout our supply chain, with a view to achieving our Vision to **transform the baking industry and expand our global leadership to better serve more consumers**.

Thank you for your trust and continued support.

Daniel Servitje
Chairman and CEO

2018 HIGHLIGHTS

 **Reached record** levels in net sales, gross profit, operating income and adjusted EBITDA

Increased market penetration to more than 3.3 million points of sale served

Became **#2 player in China**

Strengthened our position in China with the acquisition of Mankattan and in Chile **with Nutra Bien**

Reached year-end target of being below 3.0x total debt/Adj. EBITDA

Double-digit growth in net majority income

35 plants worldwide achieved zero waste to landfill

134 plants with more than 80% recycling

We achieved **91% water reuse** in all our operations in Mexico

We signed the RE-100 commitment to achieve by **2025, 100% electrical renewable energy** in all the Company

98% of our packaging in Mexico has  **oxo-biodegradable additive**

100% of the business units carried out their associates' medical follow-ups

Honored as one of the **"World's Most Ethical Companies"** by The Ethisphere Institute

1st place in Merco's ranking, as the most responsible company in Mexico, since 2014, with a 10/10 score for the third consecutive year

New Nutritional Guidelines Launch 

Tracking the **RIGHT** *Sourcing*

Tracking down the RIGHT recipe

Health and Wellness

Our **H&W objective**: Grupo Bimbo as a leading food business that **transforms** the way people eat, leaving **each generation better nourished and healthier** than the one before.

At Grupo Bimbo, we are committed to meet the needs of our consumers, encourage health and wellness initiatives which promote healthy lifestyles and the constant improvement in the nutritional quality of our products.

PRODUCTS

In 2018 we strengthened our nutritional profile through 5 new elements:

1

Consumption patterns

Daily and occasional categories based on their intended role in overall diet

2

Targeted consumer

Recommended daily values for nutrients differentiated between children and adults

3

Clean label Levels

Transparency and label-friendly ingredients in our recipes

4

Nutritional Profile

Nutritional quality balance in nutrients to encourage and nutrients to limit

5

External validation

Credibility through validated and recognized external methodology

Starting in the second half of 2018, we launched **NEW NUTRITIONAL GUIDELINES**, which have allowed us to evaluate our portfolio in a more demanding manner in order to guarantee the needs of our consumers.

This new approach also evolved our new global Health and Wellness strategy, which is currently based on 3 fundamental pillars:

NEW GLOBAL HEALTH & WELLNESS STRATEGY

1

Deploy new nutritional Guidelines

- Daily Consumption products must comply with the new nutritional guidelines
- Occasional consumption categories: Minimum content of nutrients to encourage more products to children: only friendly ingredients in their recipes.

2

Strengthen our Portfolio in Brands and healthy products

- Achieving 30% of branded portfolio from Health & Wellness products

3

Global Nutrition Policy

- Relevance of industrialized products taking under consideration their nutritional contribution and accessibility

PERFORMANCE review

(millions of Mexican pesos)

Net Sales

Global net sales increased 7.8% in 2018, setting up a record which was mainly due to the outstanding performance of the Company in Mexico and North America, as well as the acquisitions completed during the year.

Mexico

Net sales in Mexico rose 10.5%, primarily driven by strong volume growth in every channel especially the modern, and every category, mainly cakes, buns and sweet baked goods, as well as new product launches such as Takis Zombie and Bimbo Donuts, a cross-market introduction from Spain. Increased customer reach and outperformance of the Bimbo and Marinela brands also contributed to growth.

North America¹

Net sales rose 4.5%, reflecting FX rate benefit and an approximate 3% increase in dollar terms arising from a combination of price increases and growth in strategic brands in the U.S., as well as solid performance in Canada and in the salty snacks categories. This was partially offset by weak volumes across the private label category in the U.S.

¹ North America region includes operations in the United States and Canada.

² Latin America region includes operations in Central and South America.

³ EAA region includes operations in Europe, Asia and Africa.

Operating Income

Latin America²

Net sales decreased 1.4%, primarily because of the difficult economic conditions and a negative FX effect, mainly in Brazil, Argentina and Uruguay which was partially offset by the good outcome in the Central America division, Colombia and Chile.

EAA³

Sales increased 37.1%, predominantly on the back of the acquisitions of Bimbo QSR and Mankattan, as well as the FX rate benefit and good performance of the bread category in Iberia; however, the sweet baked goods category underperformed.

Gross Profit

For 2018, gross profit rose 6.8% while the margin contracted 50 basis points to 52.9% because of higher costs of goods sold in North America and a different business mix in EAA attributable to the incorporation of Bimbo QSR.

Operating Income

On a cumulative basis, consolidated operating income increased 5.9%, while the margin slightly declined 10 basis points mainly because of the VSP initiative implemented in the U.S. in the second quarter.

Adjusted EBITDA

In 2018, the Company reached the highest level of adjusted EBITDA totaling Ps. 31,705 million.

⁴ Adj. EBITDA for the last twelve months as of December 31, 2018, excludes the non-cash charges related to the VSP and organizational restructuring initiatives implemented in the U.S. and Canada.

Net Majority Income

Net majority income increased 25.5% with a margin expansion of 30 basis points, on the back of strong operating performance and a lower effective tax rate which stood at 41.8% compared to 52.6%, this decline reflected the enactment of the Tax Cuts and Jobs Act ("Tax Reform") in the U.S. implemented on January 1st, 2018, the latter was partially offset by a higher financing cost.

Earnings per share totaled Ps. 1.23, compared to Ps. 0.98 in 2017.

Comprehensive Financial Result

Comprehensive Financial Result totaled Ps. 6,995 in 2018, compared to Ps. 5,775 million of last year. The 22% increase was mainly explained by the higher interest expense due to a higher average indebtedness level and a higher cost of financing because of the transformation of Canadian and U.S. dollar denominated debt to Mexican pesos.

Financial Structure

Total debt at December 31st, 2018, was Ps. 89.8 billion, compared to Ps. 93.4 billion on December 31st, 2017. This decrease was predominantly related to the prepayment of US\$123 million outstanding from the revolving credit facility and, to a lesser extent, the repurchase of almost \$450 million pesos in local bonds.

Average debt maturity was 10.6 years with an average cost of 5.97%. Long-term debt comprised 98.7% of the total; 59% of the debt was denominated in US dollars, 36% in Mexican pesos and 5% in Canadian dollars.

The total debt to adjusted EBITDA ratio, excluding the VSP charge was 2.8 times compared to 3.4 times at December 31st, 2017, while the net debt to adjusted EBITDA ratio was 2.6 times compared to 3.2 times at December 31st, 2017.

The Company invested Ps. 1.2 billion in its share repurchase program, buying back around 30 million shares.

Currency Mix

"The Company's solid financial position and robust results reflect top line growth and the underlying strength of our businesses following a period of investments in restructuring"

Audit and Corporate Practices

COMMITTEE REPORT

Mexico City, March 28, 2019

To the Board of Directors of Grupo Bimbo, S.A.B. de C.V.

Dear Sirs,

In conformity with the provisions of the Securities Market Act, the corporate charter of this Company and the Regulations of the Audit and Corporate Practices Committee of Grupo Bimbo, S.A.B. de C.V. (the "Group" or the "Company"), I hereby present to you the report of the activities carried out by the Audit and Corporate Practices Committee (the "Committee") during the year ended December 31, 2018. In carrying out our work, we abided by the recommendations established in the Code of Best Corporate Practices.

Based on the previously approved work plan, the Committee met eight times during the year, in which it discussed the issues it is legally obligated to consider and carried out the activities described below:

INTERNAL CONTROLS

With the assistance of both Internal and External Auditors, we verified that management had established general guidelines for internal control, as well as the necessary procedures for their application and enforcement. In addition, we followed up on the remarks and observations made by the external and internal auditors in performance of their duties.

The members of Management responsible for such matters presented us with the plans of action corresponding to the observations resulting from the internal audit, so our contact with them was frequent and their responses satisfactory.

CODE OF ETHICS

With the support of the Internal Audit Department and other areas of the Company, we verified compliance by the associates of the Company with the Group's current Code of Ethics.

We learned of the results and central issues identified in maintaining a hotline for Group associates, and management informed us of the actions taken in those cases.

EXTERNAL AUDIT

2018 was the first year in which the firm EY was responsible for the Company's external audit. We were in constant contact with the representative of the firm to follow up on the relevant issues and know the activities carried out for an effective transition between EY and Deloitte (outgoing firm) and the Company's management. The audit of the consolidated financial statements as of December 31, 2018 has been completed and the opinion was clean. The firm is one in all the countries in which the Company operates, except for the recent acquisitions during 2018 in Chile and the business called Bimbo QSR in France and South Korea, where they relied on the work of other firms, the which the auditor of Bimbo QSR France already reported the result of the review with a clean opinion, and regarding the other companies EY did not consider it necessary considering them of low materiality.

We approved the fee for these auditing services, including additional fees to account for the growth of the Group and other permitted services. We ensured that these payments did not compromise the independence of that firm.

The external auditors presented their approach and work program and areas of interaction with Grupo Bimbo's Internal Audit department, the Committee approved this presentation.

We maintained direct and close communication with the external auditors, and they informed us on a quarterly basis of the progress of their work and any observations they had; we took note of their comments on the quarterly and annual financial statements. We were promptly informed of their conclusions and reports on the annual financial statements.

We reviewed the content in a timely manner of the Prior Notice to the issuance of the External Audit Report (or Independent Auditor's Report) made in accordance with the International Auditing Standards on the consolidated financial statements of the Company as of December 31, 2018 and for the year ended on that date, which have been prepared in accordance with International Financial Reporting Standards (hereinafter IFRS), issued by the Independent External Auditor of the Company and legal representative of Mancera, SC (or EY Mexico), in order to comply with the provisions of Article 35 of the General Provisions Applicable to Supervised Entities and Issuers by the National Banking and Securities Commission that Contract External Audit Services of Basic Financial Statements (hereinafter Provisions, Sole Circular of External Auditors or CUAE).

In addition, we conducted an evaluation of the services of the external auditing firm for the year 2018 and were promptly informed of the preliminary financial statements.

INTERNAL AUDIT

We reviewed and approved the annual work plan and activities budget for 2018.

In each of this Committee's meetings, we received and approved regular reports on the progress of the approved work plan.

We followed up on the comments and suggestions made by the Internal Audit area, and verified that Management resolved any deviations from the established internal controls, and we therefore consider the status of that system to be reasonably correct.

We authorized an annual training plan for personnel of the area and verified its effectiveness. A number of specialized professional firms participated actively in that plan to maintain the members with updated information on the appropriate topics.

FINANCIAL INFORMATION AND ACCOUNTING POLICIES

We reviewed the quarterly and annual financial statements of the Company together with the parties responsible for their preparation, recommended their approval by the Board of Directors, and authorized their publication. Throughout the process we took into account the opinions and remarks of the external auditors.

To arrive at an opinion on the financial statements, we verified, with the support of the internal and external auditors, that the accounting policies and standards and the information used by management in the preparation of the financial statements was appropriate and sufficient and had been applied in a consistent manner with the prior year, taking into account the changes in IFRS effective both in that year and the preceding year. As a result, the information presented by Management reasonably reflects the financial position, results of operations and cash flows of the Company.

COMPLIANCE WITH REGULATORY STANDARDS AND LAWS; CONTINGENCIES

With the support of the internal and external auditors, we confirmed the existence and reliability of the controls established by the Company to assure compliance with the various legal provisions to which it is subject, and assured that these were appropriately disclosed in the financial information.

At the close of each quarter, we reviewed the Company's various tax, legal and labor contingencies and confirmed that appropriate procedures were in place and consistently followed, so that Management could identify and address them in an appropriate manner.

The Risks Committee informed us of the methodology it follows to determine and evaluate the risks the group faces, and we verified that the risks were being monitored and mitigated where possible, and that they were considered in the work plans of the Internal Auditors.

Management explained to us the main guidelines that govern the anti-corruption policy, as well as plans for its dissemination and for checking on compliance with that policy, which we found satisfactory.

COMPLIANCE WITH OTHER OBLIGATIONS

We met with Management executives and officers as we considered necessary to remain abreast of the progress of the Company and any material or unusual activities and events.

We obtained information about significant matters that could involve a possible breach of operating policies, the internal control system and policies on accounting records, and we were also informed of corrective measures taken in each case, and found them satisfactory.

We did not find it necessary to request the support or opinion of independent experts, because the issues raised in each meeting were duly supported by the information on hand, and the conclusions reached were satisfactory to Committee members.

TRANSACTIONS WITH RELATED PARTIES

We reviewed and recommended for approval by the Board of each and every related party transaction requiring approval by the Board of Directors for fiscal year 2018, as well as for recurring transactions that are expected to be conducted in fiscal year 2019 that require Board approval.

EVALUATION OF MANAGEMENT

We reviewed and recommended for approval by the Board, the evaluation of management and compensation of the Chief Executive Officer as well as the members Bimbo's Executive Committee in 2018 previously reviewed and recommended by the Evaluation and Results Committee.

In my capacity as Chairman of the Audit and Corporate Practices Committee, I reported regularly to the Board of Directors on the activities conducted within the Committee.

The work that we conducted was duly documented in minutes of each meeting, which were reviewed and approved at the time by the Committee members.

Sincerely,

Edmundo Vallejo Venegas
Chairman of the Audit and Corporate Practices Committee
Grupo Bimbo, S.A.B. de C.V.

Mexico City, March 28, 2019

To the Board of Directors of Grupo Bimbo, S.A.B. de C.V.

In my capacity as chairman of the Audit and Corporate Practices Committee (the "Committee") of Grupo Bimbo, S.A.B. de C.V. (the "Company"), and in accordance with point e), section II of Article 42 of the Securities Market Act, I hereby present you the opinion of the Committee regarding the content of the report of the Chief Executive Officer regarding the financial situation and results of the Company for the year ended December 31, 2018.

In the opinion of the Committee, the accounting and information policies and criteria followed by the Company and used to prepare the consolidated financial information are appropriate and sufficient, and consistent with international financial reporting standards. Therefore, the consolidated financial information presented by the Chief Executive Officer reasonably reflects the financial situation and results of the Company as of December 31, 2018 and for the year ended on that date.

Sincerely,

Edmundo Vallejo Venegas
Chairman of the Audit and Corporate Practices Committee
of Grupo Bimbo, S.A.B. de C.V.
